Subject Comment on American Crossroads Advisory Opinion
Request - AOR 2011-23

Dear Secretary Werth,

I sincerely hope that you and the FEC will take Karl Rove's request as a joke, because when I first heard what he was asking for, I certainly thought it must be.

"While these advertisements would be fully coordinated with incumbent Members of Congress facing re-election in 2012, they would presumably not qualify as 'coordinated communications.'"

This is absolutely ridiculous, and should embarrass any fair-minded, intelligent citizen of our great country. Please add my name to the list of electorate who will be outraged if American Crossroads request is granted.

Subject AOR2011-23 for rejection

Dear Commission Member,

Greetings From Connecticut.

I, Bernard Kokinchak is concern with the request of AOR 2011- 23 by American Cross Road. The request before the commission suggest that Pac can receive money unlimited money (here by refer to as Super PAC) can then turn around using candidate for office, when the Pac is to operate in non coordination. I ask of the commission to defined what non coordinated active when compare to coordinated active with candidate. I would urge rejection of AOR 2011-23 of using candidate in Supper Pac any manner to avoid to appearance of Super Pac supporting candidate for office. Further more this request can also mess with Local and State election because now would possible (if AOR 2011-23 was pass as is) theoretical it would mean for for in Connecticut some candidate could be in the Citizen Election program and receive state fund for his or her election, runs out money. Then avoid state by forming Supper Pac around a state issue then use that Supper Pac fund raise more money, out reach of State Election Enforcement Official.

Further more American For Better Tomorrow, Tomorrow example although funny, it would be come the more to truth soon than you think. I would suggest looking to FCC rule on candidate be on station though the USA. I feel if you do not stop this AOR 2011-23 now you make impossible for common person to run for office.

From,

Bernard Kokinchak
Southbury, Connecticut

Subject KARL ROVE

He would be inappropriate for any kind of government job; whether that be president, governor, or any state politician. Also, his influence should never be accepted by any person who holds office as well.

Thank you.

Support - AOR 2011-23 Karl Rove's Opinion Request

Dear F.E.C.

Our corporation strongly supports Karl Rove's Opinion Request (AOR 2011-23). We believe that the F. E. C. should remove every existing restriction and then dissolve the Commission to eliminate the possibility that any restriction may be re-constituted.

We believe that all restrictions on elections are best eliminated so that those of us with the money, lobbyists, and the hidden financial resources to purchase elections and control policy will have absolute control over the United States of America.

Please confirm that you will promptly act on this request.

Thank you for your consideration.

Best regards

Subject AOR 2011-23

Dear Commissioners:

Please accept this email as a formal comment on the Advisory Opinion Request submitted to the Federal Election Commission on October 12, 2011, and again in a revised version on October 28, 2011, by American Crossroads, an organization led by political consultant, Karl Rove. As an American who has exercised his right to vote since 1967, I have deep reservations regarding the Request by American Crossroads.

As I have read and come to understand the American Crossroads Advisory Opinion Request, it is the intent of Mr. Rove and his organization to sponsor advertisements featuring Members of Congress up for re-election. Their Request then asks that "fully coordinated" ads should not be counted as "coordinated communications"?!?

Please know that I strongly disagree with their position. Clearly, the ads they propose, featuring candidates on behalf of candidates, can only be seen as candidate ads and must, therefore, be considered as "coordinated communications".

May I also say further that I strongly believe that Super PACs should never be allowed to coordinate their political advertisements with any candidate, in any sense of the word "coordinate".

I respectfully request, therefore, that you to disapprove the Advisory Opinion Request made by American Crossroads.

With best regards,

Henry D. Zunker
